Discounts available on volume orders.

Need the cutterhead?

We sell the Corob head to fit these table saw cutters.

The head is available in two sizes:

MHK25 3-5/8" in diameter
0.35" thick and approximately 4-7/8" in diameter with knives installed.
Fits many 5/8" arbor table saws\$86.25

MHK75 5.7" in diameter
0.35" thick and approximately 6.9" in diameter with knives installed.
Intended for table saws that do not crank up high enough
to accommodate the smaller diameter MHK25\$123.75

Each head has a 5/8" bore. Please inquire about other special bore sizes.
